

October is National Disability Employment Awareness Month

Kadeshia Johnson trained at Arkansas Career Training Institute in Hot Springs in the Certified Nursing Assistant Program. She was one of the first Certified Nursing Assisting students to complete the Pre-Apprenticeship training. While attending ACTI, Kadeshia was also a proud member of HOSA-Future Health Professionals and competed in the state competition in medical related contests. She started her job as a Certified Nursing Assistant at Fox Ridge Assisted Living in April after completing her training. She loves her new job and is thankful to everyone at ACTI for helping her achieve her goals.
