

October is National Disability Employment Awareness Month

ACTI Student Works Towards Becoming A CNA and Succeeds!

While attending the Arkansas Career Training Institute (ACTI), Madison Mueller completed the Certified Nursing Assisting training program. Once completed, she passed the State Board Exam and began working at Cabot Nursing and Rehab. Her husband, an active service member, was stationed in Washington, D.C. and Madison soon moved to join her husband. Once moved, she was able to transfer her C.N.A. licensure to Virginia and is now working as a C.N.A. at a facility and Alexandria, Virginia. Madison is thankful for her training and her skills she received while at ACTI and was just recently able to purchase her own car!
